VITAMIN D,25-HYDROXY - Details

Comments from the Doctor's Office

Your labs look fine, except that your vitamin D is low. Take your vitamin D as prescribed.

Component Results

Component	Your Value	Standard Range
Vitamin D (25-Hydroxy)	Your Value 24 ng/ml	<i>Standard Range</i> <i>30 - 100 ng/ml</i>

Recommendations from the Institute of Medicine and Endocrine Society (2011) classify vitamin D levels as below (J Clin Endocrin Metab. 2011; 96:1911-1930).

Deficiency <20 ng/ml

Insufficiency 20-29 ng/ml

Optimum 30-100 ng/ml

Toxicity >150 ng/ml

This immunoassay (Beckman Coulter Dxl Immunoassay Systems) can measure Vitamin D up to 120 ng/mL. If quantification above this level is required, contact the laboratory and request referral for additional testing.

General Information

Ordered by Karen Elmore, MD

Collected on 07/20/2020 9:52 AM from Arm, Left (Venipuncture) (Blood)

Resulted on 07/20/2020 1:46 PM

Result Status: Final result
